

ИИ за генериране на изображения

1) Midjourney - <https://www.midjourney.com> – платена, най-известна

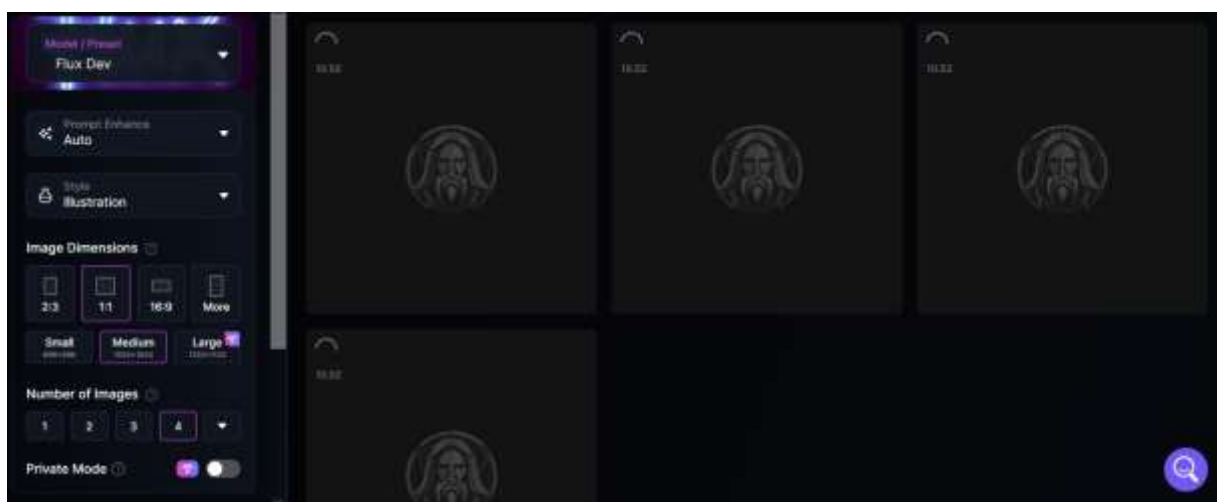

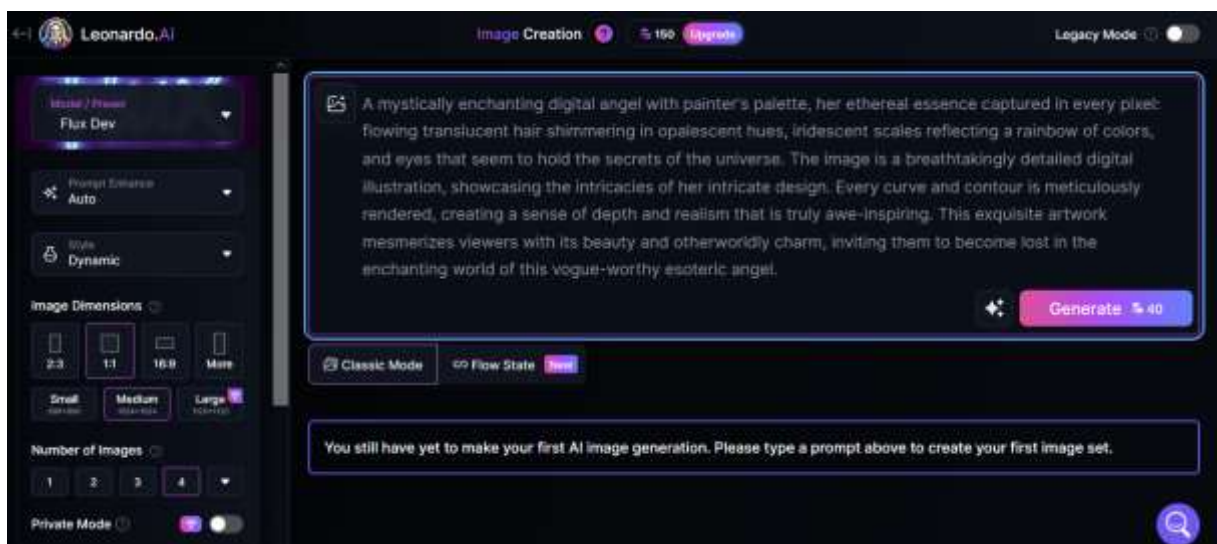

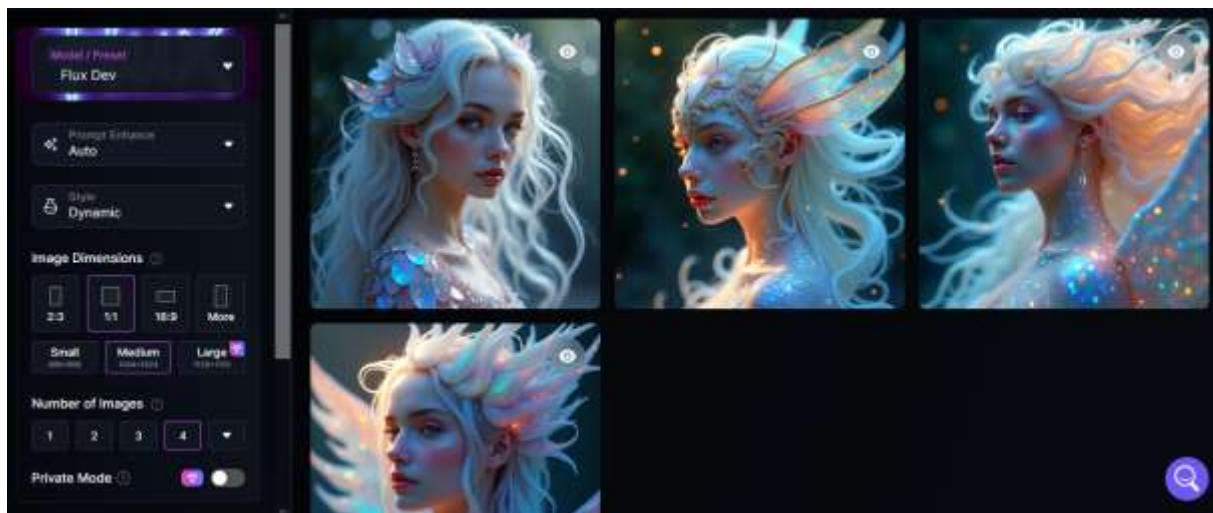

2) Леонардо - <https://leonardo.ai>

Моят акаунт: Nikel + Angel + 0 като Микеланджело / НикелАнджелО.

Може да ти подсказва как да генерираш текст и ти да го редактираш:

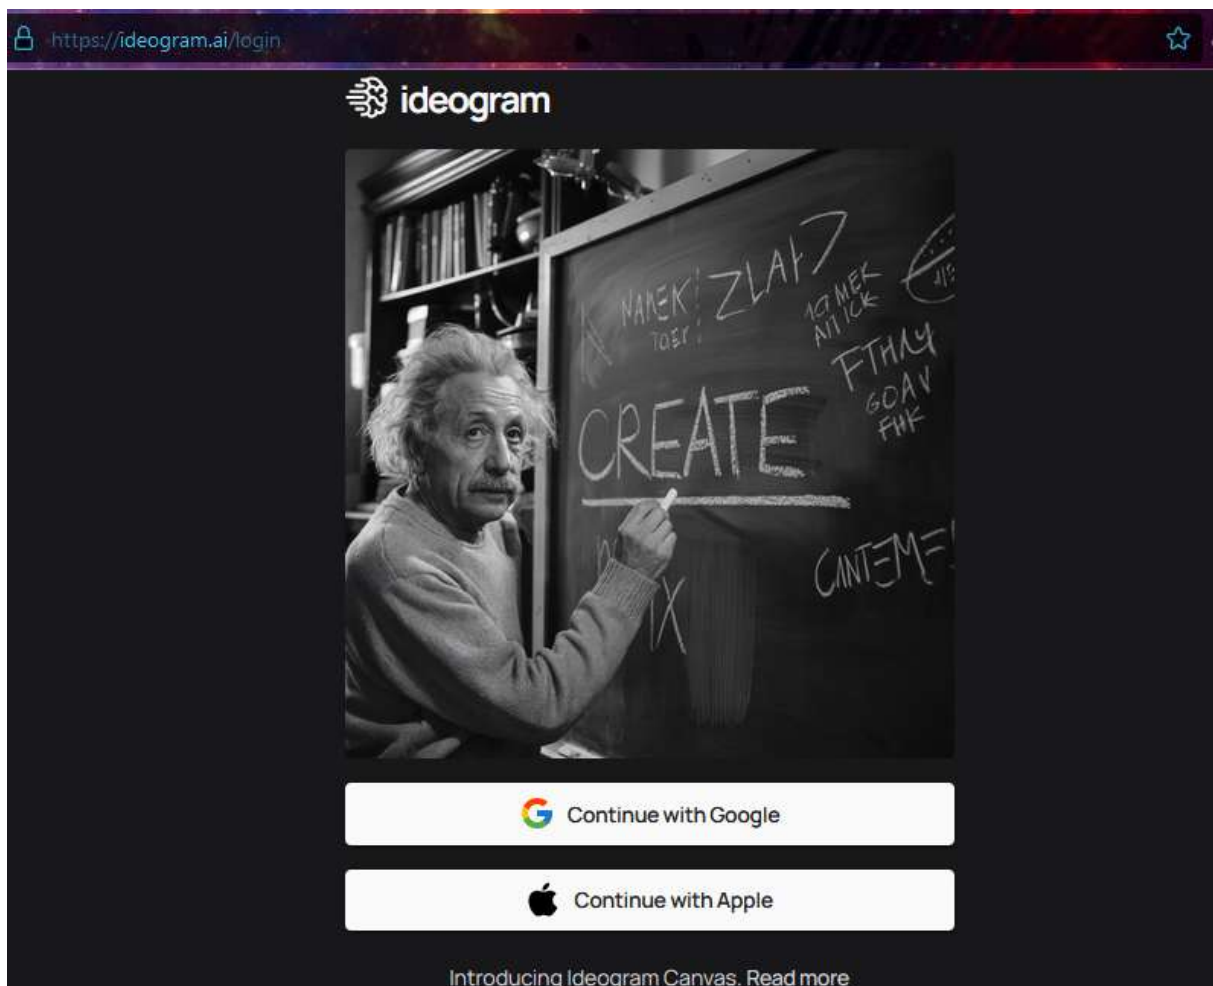

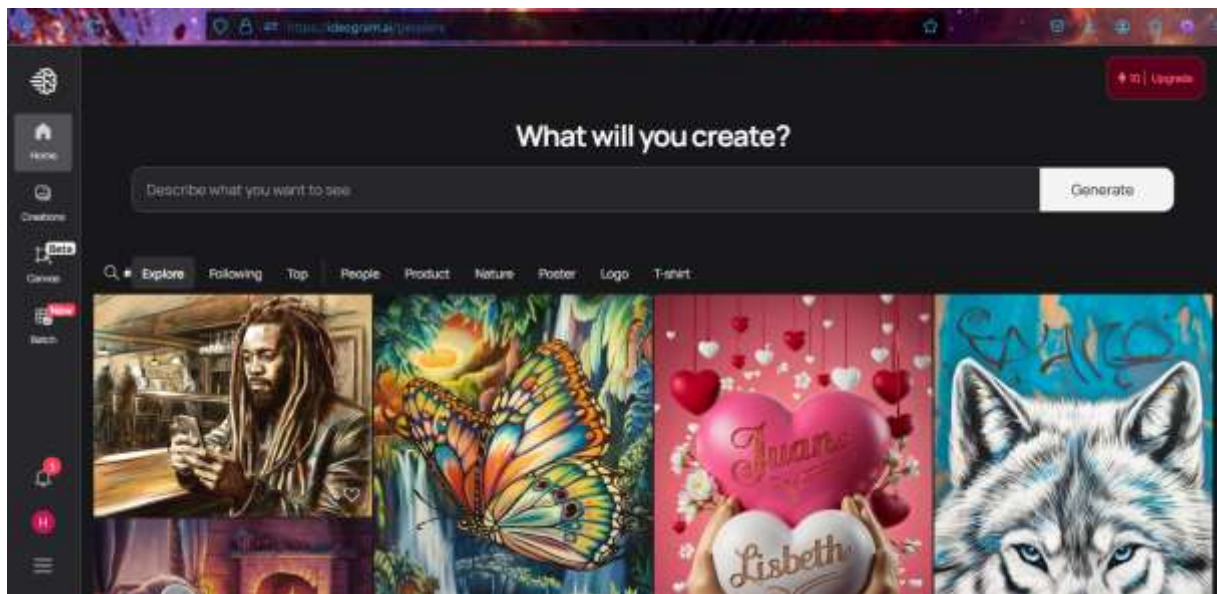

3) Най-големият конкурент на платената Midjourney:

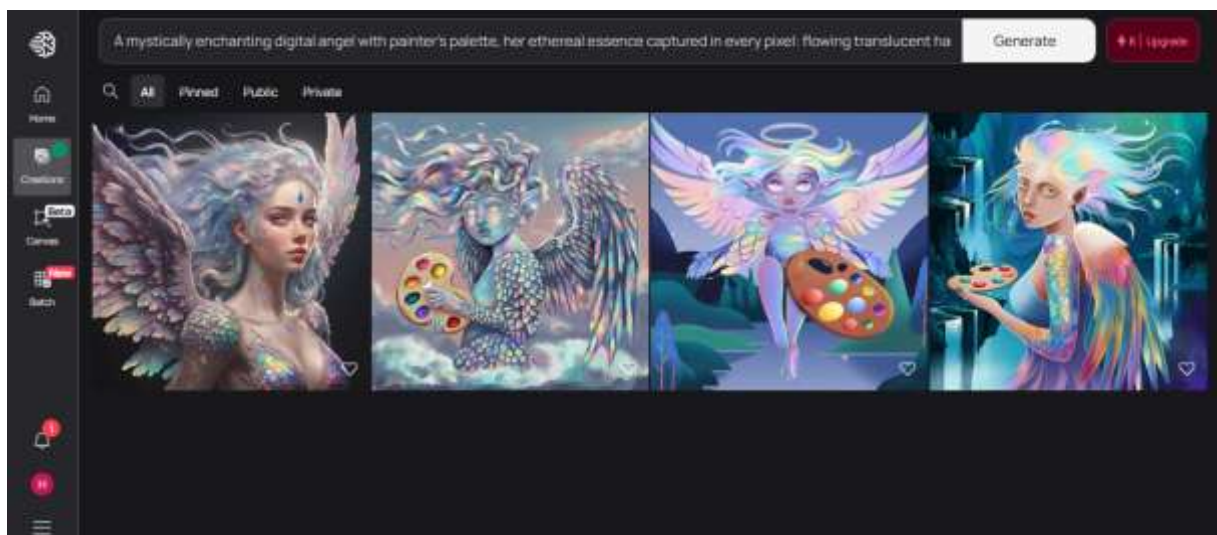

ИдеоГрам = Идея <https://ideogram.ai>

Логото е с мозък с 2 различни полукълба (ляво локига, дясно изкуство).

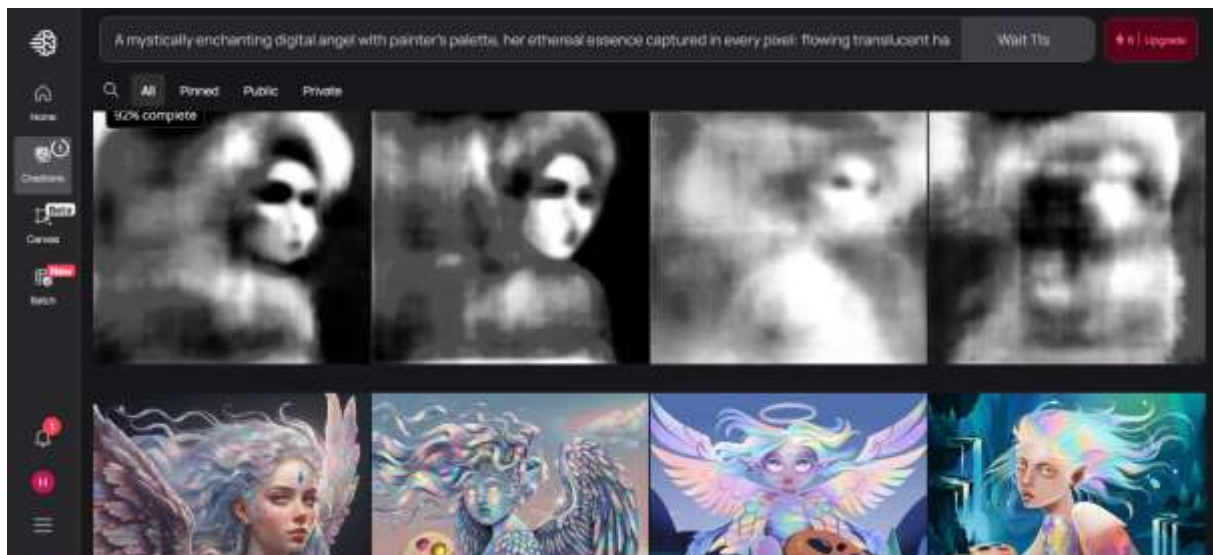

Използвах същото запитване, което взех от Леонардо и ми генерира тези картинки, които са ужасни.

Докато ги генерира, изглеждат като призраци:

4) Bing - <https://www.bing.com/images/create?brdr=1> – на Microsoft и изисква акаунт.
