ASCII – таблицата е по-стара, съдържа само 127 знакови команди, само латинските букви, като 65-90 са главни латински букви, след тях 97-122 са малките латински букви.

Т.к. няма кирилица и други езици, по-късно се налага по-голямата таблица UNICODE / UTF-8.

Кирилицата започва от 256-и символ <https://www.utf8-chartable.de/unicode-utf8-table.pl>

По подразбиране, в новите сайтове като нашия Шекспир е новата таблица, зададена още в мета-тага за невидима информация съвсем в началото. В БД също се използва нея, което се индикира с п.

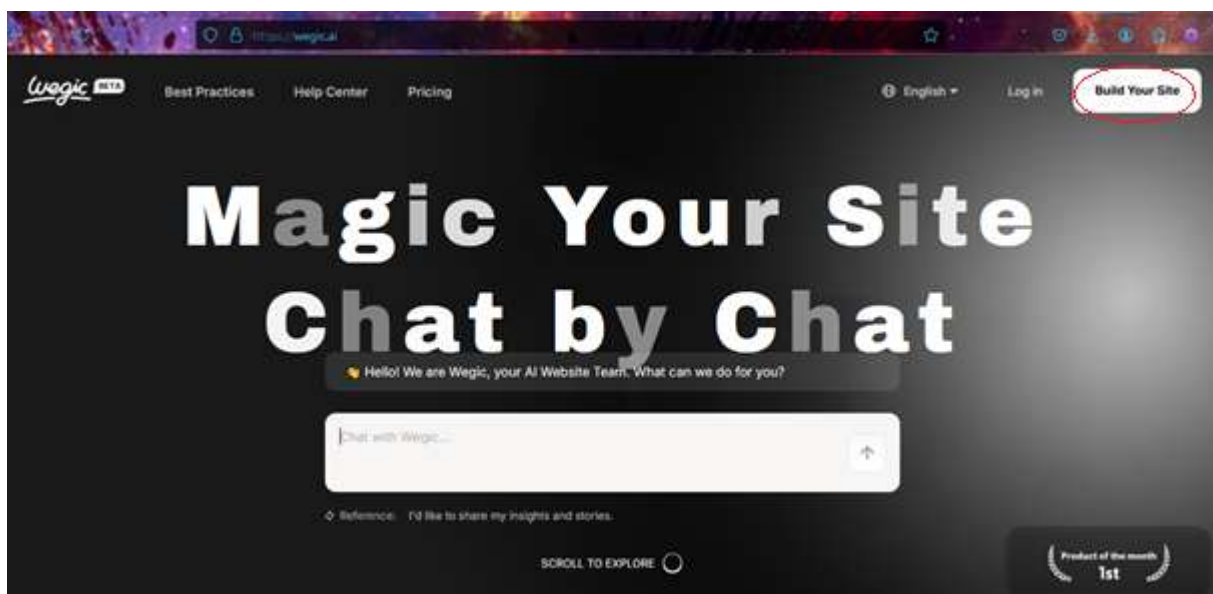

char, varchar – стари, ASCII

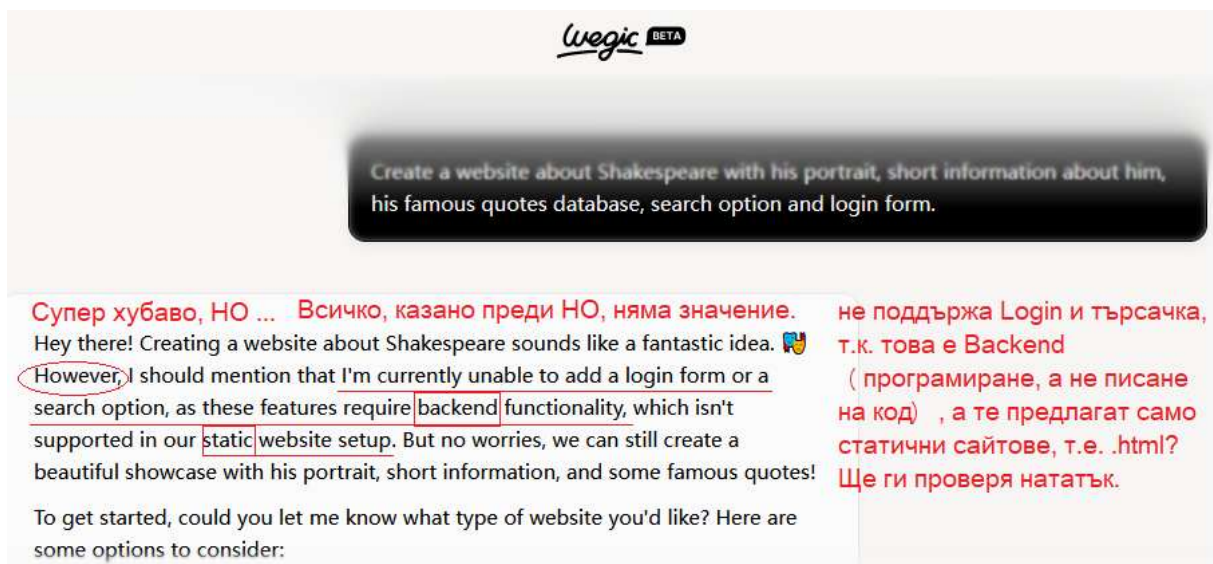

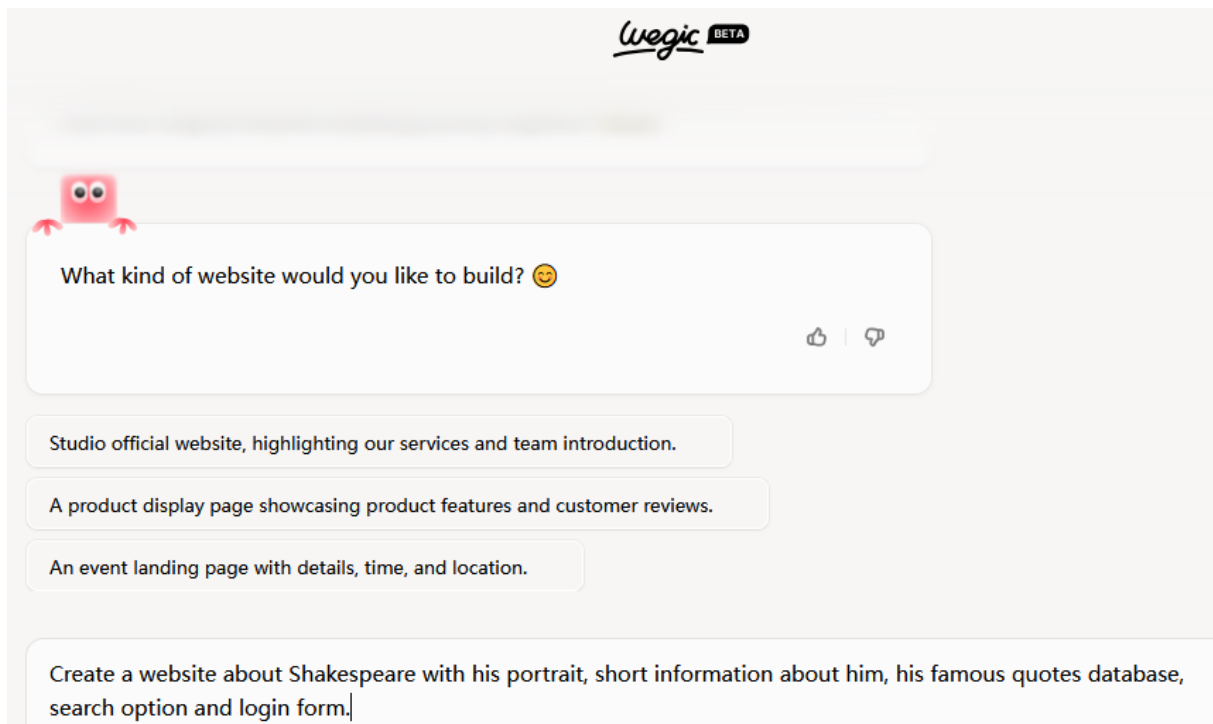

nchar, nvarchar – нова форма, N = native, включва повече езици, т.е. UTF-8 / Unicode.

Тествам ИИ за генериране на сайтове.

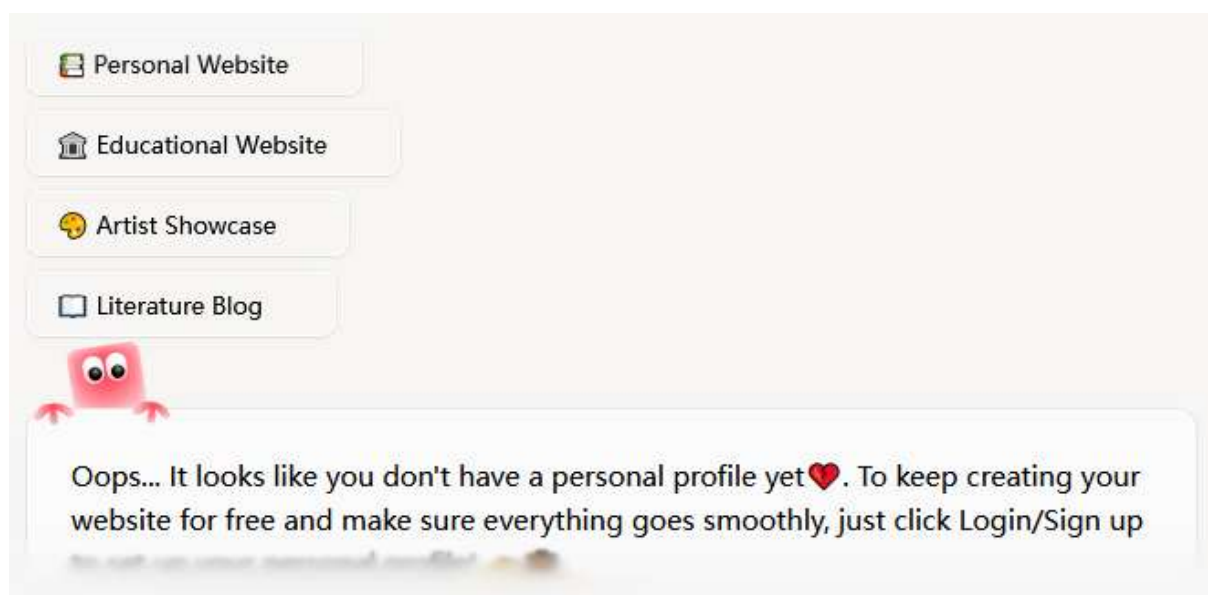

Онлайн-компилатори: <https://www.db-fiddle.com> или <https://dbfiddle.uk>

Сайт: <https://wegic.ai>

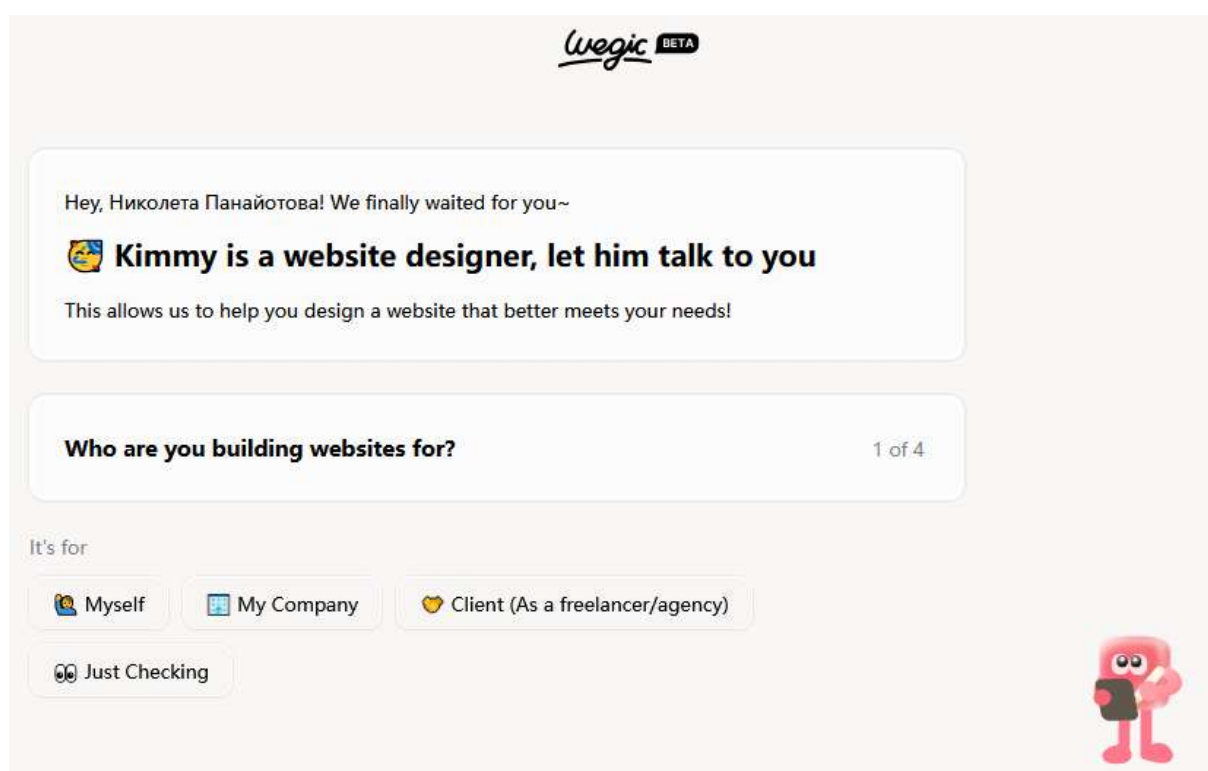

Вероятно ще избира обучителен сайт, но изисква Login.

Има възможност за вписване с акаунт от Google. Това е много хубаво, т.к. тогава в тяхната БД не се пази мой профил. Ще разгледаме това в уроците напред и как да си вкараме ние самите такава функционалност в нашия сайт.

William Shakespeare: A Life in Words

Born in 1564, Shakespeare's journey from Stratford-upon-Avon to the bustling stages of London is a tale of ambition and creativity.

His works, ranging from comedies and tragedies to sonnets, reflect the complexity of human emotions and societal norms.

Through his writing, Shakespeare has left an indelible mark on literature, influencing generations of readers and writers.

Не може да се изтегли готовия код директно, а само да се публикува.

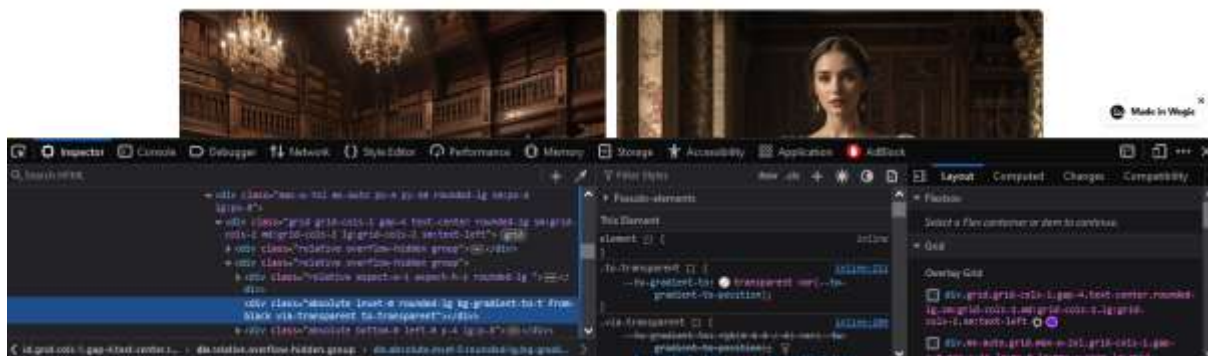

Когато разгледам изходния код, самата генерация от ИИ е скрита с думата „wegic“, изписана с долари \$ и #, даже първоначално ми заприлича на „magic“.

Все пак, могат да се вземат идеи и картинки – снимките са една доста съществена част от сайтовете.

Сайтовете са изцяло статични .html, което означава точно това – без БД, логин, по всяка вероятност – без възможност за редакция дори след публикуване?

Това, че сайтът е изцяло статичен, не означава, че той няма да бъде добър. Визуално, може да бъде много разчупен, анимиран и ефектен. Докато се учим, могат да се използват готови .html templates – архивирани сайтове, с цялата подредба в тях по папки. Ако дадем д.б. върху даден сайт и разглеждаме неговия код, можем да го копираме в празен .html документ. Ако изтеглим и картинките от него, създаваме имитиращо копие, което, ако се разпространява с измамна цел, се нарича fishing – риболов, търсят се шаранчета. Такъв пример е на български пощи. Винаги трябва да оглеждаме адресите на линковете, особено, ако се изискват логин (https) или банкови преводи.

Описание с команди стъпка по стъпка: write.corbpie.com/downloading-all-files-and-folders-with-wget/

Когато имате вече готов сайт / блог, подходящо запитване prompt към ChatGPT:

"Write an engaging punchy introduction for this blog article. Please alternate between short and long sentences and avoid jargons or cliches. Make it engaging and suited for a professional audience. Give specific, actionable information that provides deep value to reader's. Tone of voice should be professional and slightly conversational. Use burstiness in the sentences combining short and long sentences to create a human like flow. Use human writing like exclamation points and first person perspectives. The intro should include a stat, quotation or something to hook the reader. Avoid did you know and instead make it punchy and engaging."

Реклами в самия сайт - <https://www.adgenai.com>

Добавя се линк на сайта, описание на продукта, как да бъдат промотирани рекламите в него и ИИ генерира тези реклами.

INTERVIEWOLOGY: <https://www.facebook.com/careercoachannapapalia/reels/>

3 важни въпроса, които вие трябва да зададете на интервю:

- 1) Why is this position open? Is this a new position, if so – why is it created or is there someone currently in the role and where are they going: are they quitting the company or perhaps they're getting promoted. If they're getting promoted, what did they do so well in this position that caused them to get the promotion?
- 2) Aside from my technical capabilities that we've already discussed, what are some of the soft skills, that are required for this position? (You're asking them to talk a little bit more about the role, maybe even outside of the job description, hoping that they're gonna tell you that maybe they need a good team player or someone who is great with client).
- 3) What projects are you currently working on that I could help you with.
